The day begins with a pleasant drive along the coastal road. Enjoy the beautiful views to the Elaphite islands and the peninsula Peljesac.

We will drive along the Delta of river Neretva and further on to the inland of Herzegovina.

Medjugorje, a sleepy Herzegovina village, about 30 km away from Mostar, has become the second largest Catholic pilgrimage site in the world.

The story of Medjugorje is well known to most Catholics.

In 1981 six teenagers were playing together in the hills between the villages of Medjugorje and Bjakovici. It was on this barren hillside that Mother Mary appeared and spoke to them.

When the children told their parents the first reaction was scepticism. The apparitions, however, did not cease. She appeared again and again and soon made believers out of even the most vocal of critics. Since then it is estimated that over 15 million people have visited this tiny place.

This tour allows visitors to experience first hand the feeling of peace and faith that surround Medjugorje which invokes a sense of awe and fascination in all who visit it.
