This tour is an excellent combination to see Dubrovnik in all its beauties from several sites before you dive into its narrow streets and history.

During the **panorama drive**, we will take You on a circuit around the hills and heights above Dubrovnik. Stopping at **three viewpoints** along the way, You will be driven up the Srd hill (415 meters above the Old Town).

From the cable-stayed bridge you can enjoy a great view down to the new harbour of Dubrovnik where daily up to 5 cruise ships stay and on the other side out to the Elaphiti islands – green small paradises on earth.

The **mountain Srd** was always a kind of protector for Dubrovnik, primary against the strong wind Bura but also against several attackers who many times tried to capture the Dubrovnik Republic.

After the panorama tour, we will drive you to the old town center where your guide is waiting already, to take you to an interesting walk through the **center and the main street Stradun**.

During this orientation tour, you will inspect the history and the development of Dubrovnik town since the 7th century till today.

After the tour you will know who and when built the city walls of this beautiful town, where the main churches are, what monasteries and museums you should visit, who lived in Dubrovnik and how is the economy today.

Your guide will be at your disposal also after the booked tour, to provide answers to your questions and give you tips about how to spend your time in Dubrovnik the best way.
